Raising Open and User-friendly
Transparency-Enabling Technologies for
Public Administration -

SPOD 2.2 “Tabit” platform is now here!

April 10, 2017 - Proud and happy to announce the new version 2.2 of the Social Platform for Open Data (SPOD). Our SPOD allows easy discussions, effective co-creation and smooth social interactions around Open Data.

Among the relevant features of “Tabit” SPOD platform:

Major features:

- **Integration SPOD platform with Facebook** allow users to join, sign in, and synchronize profile info using their Facebook accounts in SPOD platform. (*Available on SPOD platform with enabled user registration*)
(End User Advisor Board Suggestion, Meeting March 3rd 2017, Rome, OKF Feedback March 5 2017, GitHub Issue [#201](#))
- **Agora and public rooms** have been totally redesigned with a new User Interface, according to several feedback from pilots. Improvements of features, previously presented, such as:
 - **Delete or modify a post/comment**: Only the comment owner, or an administrator, can modify and delete comments.
 - **Agora export**: Administrator panel allows to delete or rename the detail of a discussion room(Issy Feedback, March 22 2017, GitHub issue [#215](#), [#7](#))
- **Cocreation data room**: A very improved cocreation data room that now allows:
 - To add images in a cell, seen also, all together, in an Image gallery
 - Streamlining user interface for map in the cocreated dataset
- **Map Datalet**: Map now clusters the markers and shows the number of items in each cluster.

Fixed Issues

- **User Interface** in SPOD: Layout tested resolution at different Screen Resolutions
(Prato Feedback, March 23 2017, GitHub issue [#224](#))
- **Agora**
 - Search for the title and description of discussion room
- **Cocreation data room**
 - "My space" feature not working
 - Missing French string in Discussion in the Cocreation data(Issy Feedback, March 29 2017 GitHub Issues [#232](#))
- **Controllet**

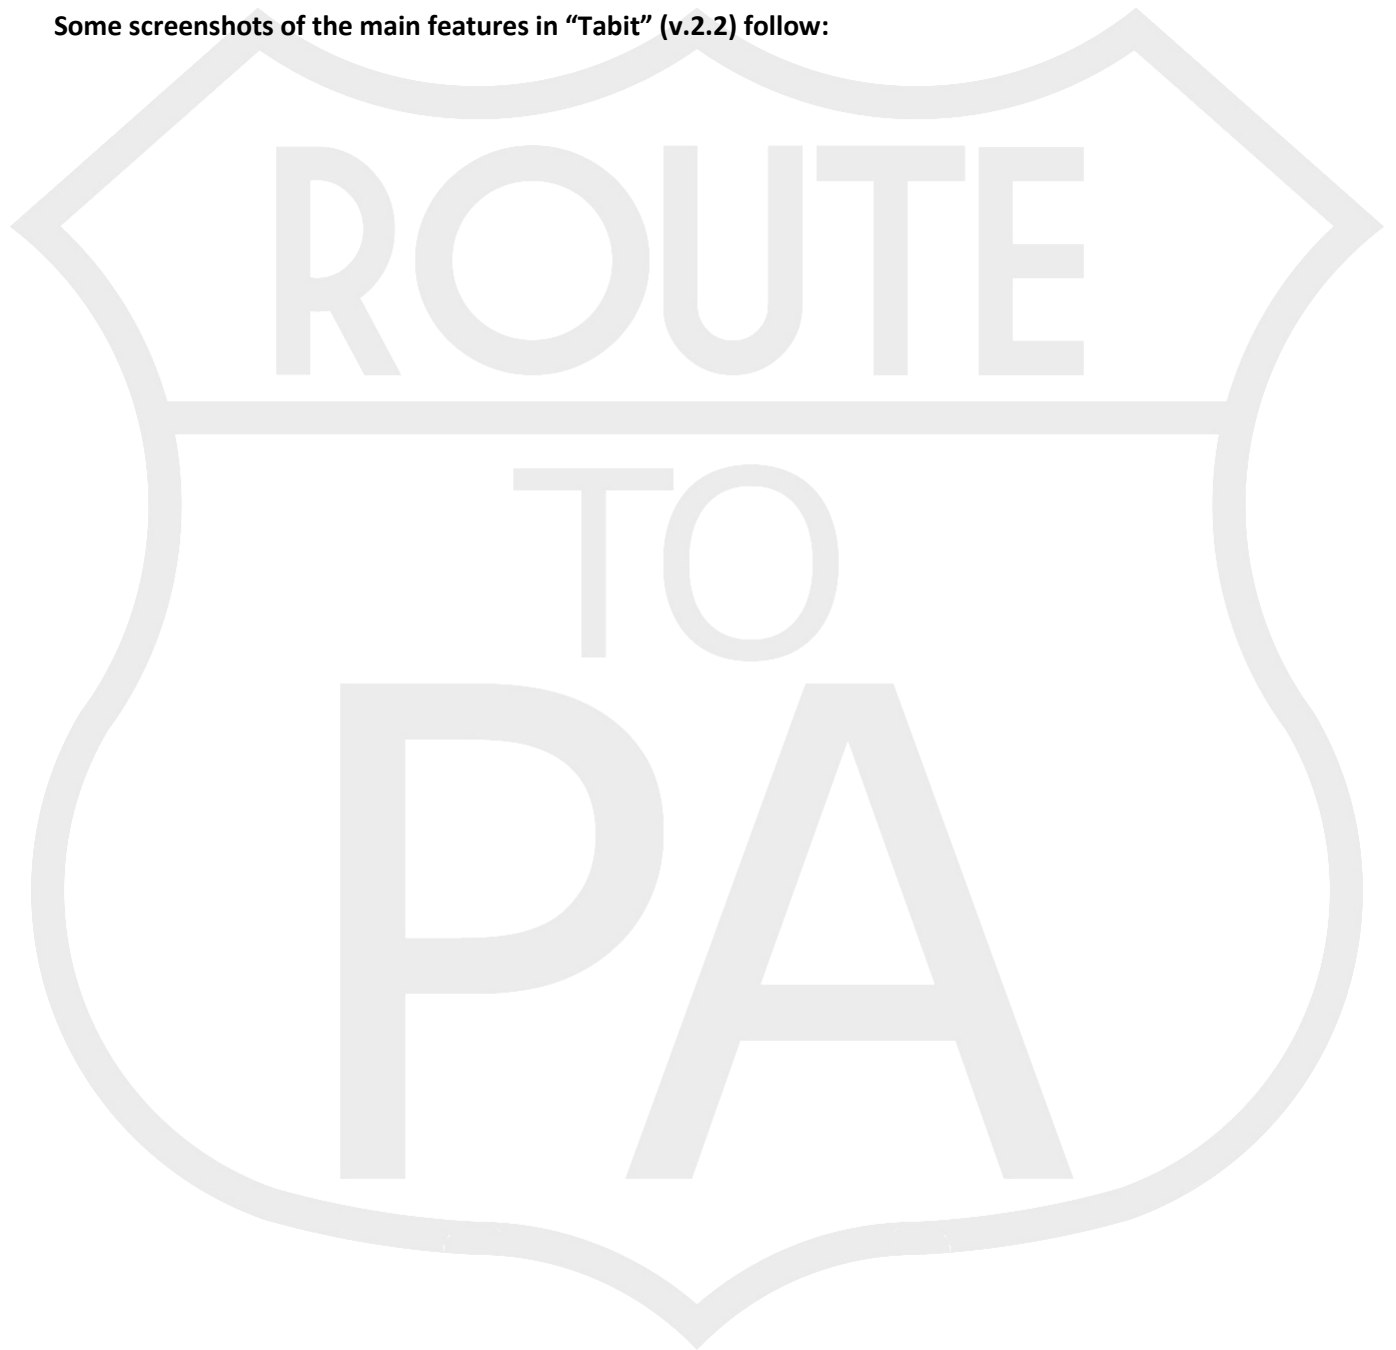

- Problems with map
(Issy Feedback, March 31 2017 GitHub Issue [#230](#))

- **French** translation

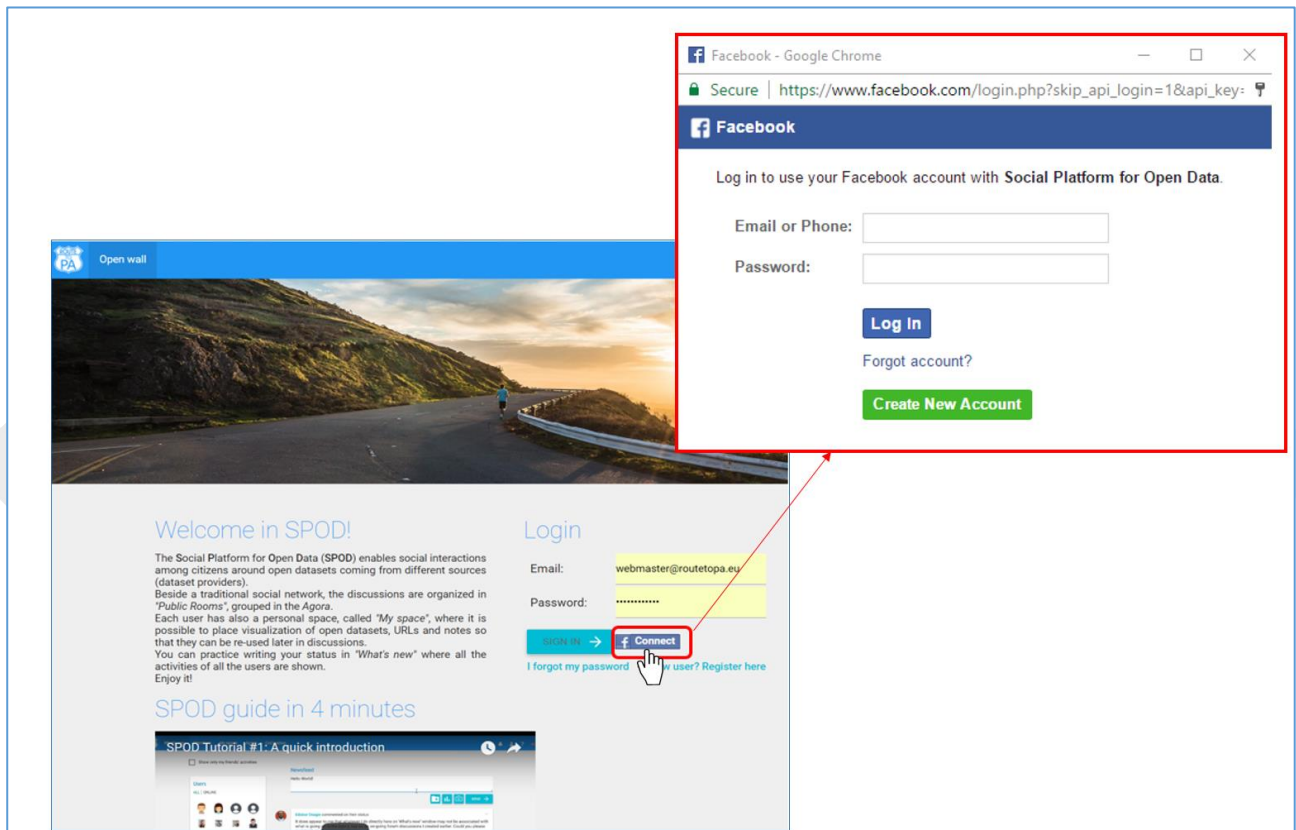

(Issy Feedback, March 31 2017 GitHub Issue [#231](#), [#215](#))

- **Sign up:** New user registration form error
(OKF Feedback, March 30 2017, [#229](#))

Some screenshots of the main features in “Tabit” (v.2.2) follow:

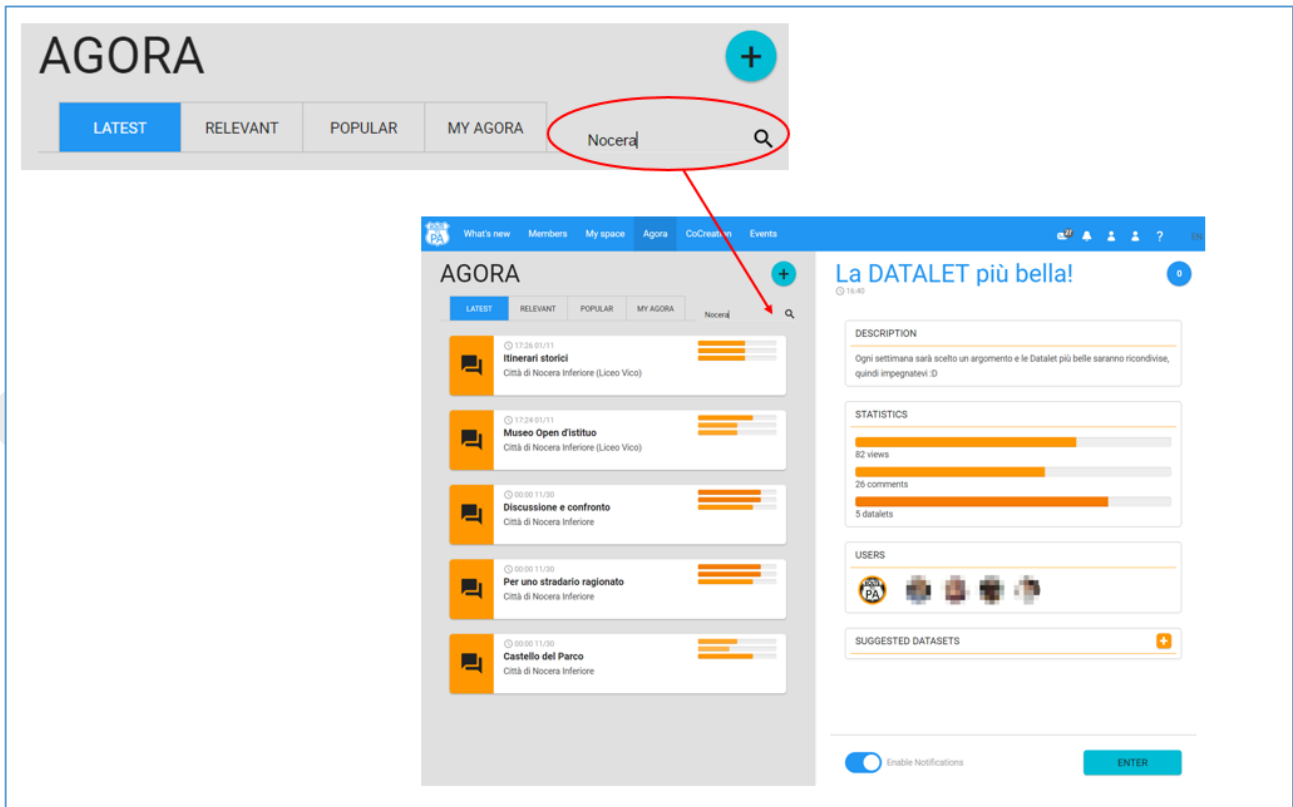

Integration SPOD platform with Facebook

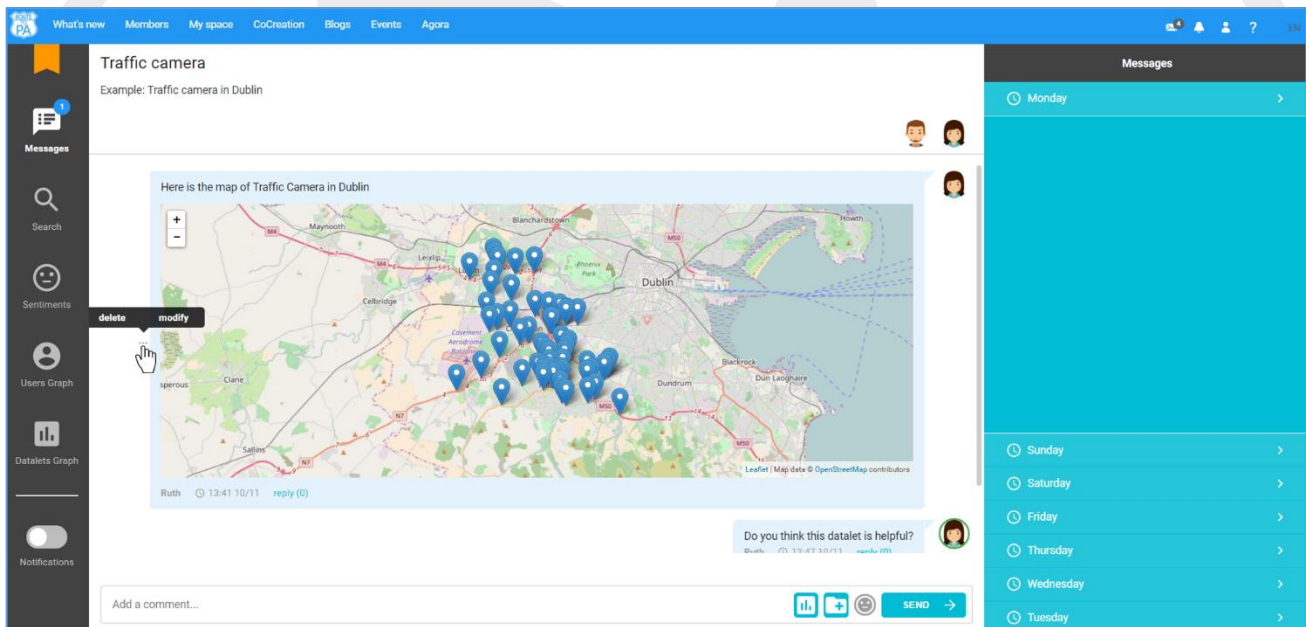

Agora

- Search in the title and description of a discussion room

- Each public room allows features of the previous releases of SPOD (e.g., delete or modify comments)
